

## Almar Jesolo Resort & Spa presented with three awards at the World Luxury Hotel Awards

The 5-star property in Lido di Jesolo, widely recognised as an icon of contemporary hospitality and well-being, closes 2017 with a remarkable collection of prestigious international awards.

5th December 2017 \*\*\* - At the World Luxury Hotel Awards, one of the most prestigious international awards in the hotel industry, Almar Jesolo Resort & Spa was awarded the Country Winner prize in the Luxury Beach Resort, the Luxury Spa Resort and the Luxury Family Resort categories.

The World Luxury Hotel Awards were established in 2006 with the aim of celebrating the highest quality standards in the luxury hotel industry. Hotels of international distinction are rewarded for their service excellence, design exclusivity, location uniqueness. Over 300,000 international travellers vote each year to select the winners of the different categories, carefully selected by the organisation to showcase the properties' unique aspects. Each category showcases a regional, continental, global and country winner. This year the World Luxury Hotel Awards gala night took place on 2nd December in the glamorous setting of the Kulm Hotel, St. Moritz, Switzerland.

The World Luxury Hotel Awards round off a great honours season for Almar Jesolo Resort & Spa, coming hot on the heels of the World Luxury Spa Awards, which awarded Almablu Spa as the best Luxury Wellness Spa in Southern Europe and the Condé Nast Johansens Awards for Excellence, declaring Almablu Spa "Best New on the Scene Luxury Spa 2018".

"We welcome these awards with great pride," said Igor Chinellato, General Manager of Almar Jesolo. "They are a further recognition of our team's daily commitment to excellent service and attention to detail. Our resort has become synonymous with harmony and well-being, and I am particularly proud that Almablu Spa is once again listed alongside other great establishments thanks to its exceptional offering and the highly professional team".

The international awards are the final accomplishment to the season. The resort has increased its business volume by more than 10% compared to 2016, welcoming global events and celebrities from the world of culture, entertainment and sports who have chosen it for their celebrations and holidays.

The hotel is closing for the winter season, reopening on 22 March 2018. During this period, the resort will undergo updates and the development of new wellness rituals that will further enrich the menu of Almablu Spa.

Almar Jesolo Resort & Spa is a beachfront property situated in a tranquil area of Jesolo, close to its lively pedestrian zone, with easy access to Venice. Its location, contemporary design and refined finishes create an elegant atmosphere for guests to enjoy a relaxing break. Light characterises the property, from the spacious rooms and suites to the Mediterra Restaurant and the Almablu Wellness & Spa. Here the natural light, the soft sounds, the delicate scents create a unique environment, at the same time protected and airy. One of the symbols of the entire resort is the 70-meter-long pool, heated from 27°C to 30°C, partially covered by a scenic glass structure extending on to the sea.
